[Creative Commons 4.0](#)

2 **Description:**

3 *An editorial commentary features an expert's comment on a paper, report, or event from within the past few*
4 *months, or in the near future. The problems addressed by the relevant paper/report/event should be considered*
5 *within the wider context of the field. Editorial Commentaries are usually invited by the editorial office. Authors*
6 *are also welcomed to contact the editorial office if they are interested to contribute.*

7 **Title: concisely convey the main topic(s) of the research**

8 *[Suggestions: No more than 20 words. No abbreviations except for standardized ones e.g., DNA, RNA, gene or*
9 *protein names, etc.]*

10 **Forename Surname^a, Forename Surname^{a,b}, Forename Surname^c**

11 ^a *Department, Institution, City Postcode, Country.*

12 ^b *Department, Institution, City, State Postcode, Country.*

13 ^c *Department, Institution, City Postcode, Province, Country.*

14 **Correspondence to:** Prof./Dr. Forename Surname, Department, Institution, Detailed Address, City Postcode,
15 Country.

17 **How to Use This Template**

18 *This template shows the manuscript structure that can be used in an original article: Abstract, Keywords,*
19 *Introduction, Methods, Results, Discussion, Declarations and References. Please note that each part has a*
20 *corresponding style, which authors should follow. Please note that the fonts in gray show writing requirements.*
21 *For any questions, you may contact the [editorial office](#).*

22 **Abstract**

23 *[Suggestions: No more than 250 words. No citations. Define abbreviations at their first mention.]*

24 Abstract is a brief summary of an article, which helps the readers quickly ascertain the paper's main
25 content. In this part, authors may mention writing purpose, background, case presentation, conclusion,
26 *etc.*

27 **Keywords:** Aging, older patients, chronic heart failure, drug therapy

28 *[Please suggest 3-6 keywords which can be used for describing the content of the manuscript and will enable the*
29 *full text of the manuscript to be searchable online.]*

30

31 **LEVEL 1 HEADING**

32 [e.g., MAIN TEXT]

33 In this section, authors should describe the main text of the manuscript in detail. If necessary, we suggest
34 that authors may set headings (level 1 heading, level 2 heading, level 3 heading, *etc.*) to separate different
35 cases or situations.

36 **Level 2 heading**

37 *Tips:*

- 38 ● *All drugs and chemicals used, including generic name(s), dose(s), and route(s) of administration, should be*
39 *identified precisely.*

40 **Table 1** (other forms: Tables 1 and 2; Tables 1-3), **Equation (1)** [other forms: Equations (2) and (3);
41 Equations (4-6)] and **Figure 1** (other forms: Figure 1A and B; Figure 2A-C; Figures 1 and 2A; Figures 1,

42 2A and 3-5) show the examples of diagrams. All the tables, equations and figures should be cited in
 43 sequence in the main content near to the first time they appear. For supplementary material, authors may
 44 cite table, equation and figure like **Supplementary Table 1**, **Supplementary Equation (1)** and
 45 **Supplementary Figure 1**.

46 *Tips:*

- 47 ● *Results should be presented in a logical sequence;*
- 48 ● *Avoid redundant explanations to all the data from the tables or illustrations.*

49 **Table 1. This is a table caption. A summary description of this table should be written here**

69 *Figure notes:*

- 70 ● *Figures should be cited in numeric order (e.g., Figure 1, Figure 2) and placed after the paragraph where it*
 71 *is first cited;*
- 72 ● *Figures can be submitted in format of tiff, psd, AI or jpeg, with resolution of 300-600 dpi;*
- 73 ● *Diagrams with describing words (including, flow chart, coordinate diagram, bar chart, line chart, and*
 74 *scatter diagram, etc.) should be editable in word, excel or powerpoint format. Non-English information*
 75 *should be avoided;*
- 76 ● *Please use the font in “Times New Roman” format for the text in the chart*
- 77 ● *Labels, numbers, letters, arrows, and symbols in figure should be clear, of uniform size, and contrast with*
 78 *the background;*
- 79 ● *Symbols, arrows, numbers, or letters used to identify parts of the illustrations must be identified and*
 80 *explained in the legend;*
- 81 ● *Internal scale (magnification) should be explained and the staining method in photomicrographs should be*
 82 *identified;*
- 83 ● *All non-standard abbreviations should be explained in the legend;*
- 84 ● *Authors should pay attention to the protection of patients’ rights, such as privacy and portrait, and obtain*
 85 *signed patient consent from authors before using any personal information of patients. The patient’s*
 86 *portrait with full characters and his/her real name is not allowed for use;*

91 **DECLARATIONS**

92 **Acknowledgments**

93 Anyone who contributed towards the article but does not meet [the criteria](#) for authorship, including
94 those who provided professional writing services or materials, should be acknowledged. Authors should
95 obtain permission to acknowledge from all those mentioned in the Acknowledgments section. This
96 section is not added if the author does not have anyone to acknowledge.

97 **Authors' contributions**

98 Single author:

99 The author contributed solely to the article.

100 Two or more authors:

101 Made substantial contributions to conception and design of the study and performed data analysis and
102 interpretation: Salas H, Castaneda WV;

103 Performed data acquisition, as well as provided administrative, technical, and material support: Castillo
104 N, Young V

105 ...

106 **Availability of data and materials**

107 Authors should declare where the data supporting their findings can be found. Data can be deposited into
108 data repositories or published as supplementary information in the journal. Authors who cannot share
109 their data should state that the data will not be shared and explain it.

110 If a manuscript does not involve such issue, please state “Not applicable.” in this section.

111 **Financial support and sponsorship**

112 If there are sources of funding for the study reported, any relevant grant numbers and the link of funder's
113 website should be provided if any. The role of the funding body in the experiment design, collection,
114 analysis and interpretation of data, and writing of the manuscript should be declared:

115 This work was supported by Grant name XX (No. XXXX; No. XXX)...

116 If there is no grant:

117 None.

118 **Conflicts of interest**

119 If there are any potential conflicts of interest that may be perceived as inappropriately influencing the
120 representation or interpretation of reported research results, please declare here.

121 If not, please write as “All authors declared that there are no conflicts of interest.”.

122 Some authors may be bound by confidentiality agreements. In such cases, in place of itemized
123 disclosures, we will require authors to state “All authors declare that they are bound by confidentiality
124 agreements that prevent them from disclosing their conflicts of interest in this work.”.

125 If authors are unsure whether conflicts of interest exist, please refer to the “Conflicts of Interest” of ANT
126 [Editorial Policies](#) for a full explanation.

127 **Ethical approval and consent to participate**

128 Research involving human subjects, human material or human data must be performed in accordance
129 with the [Declaration of Helsinki](#) and approved by an appropriate ethics committee. An informed consent
130 to participate in the study should also be obtained from participants, or their parents or legal guardians
131 for children under 16. A statement detailing the name of the ethics committee (including the reference
132 number where appropriate) and the informed consent obtained must appear in the manuscripts reporting
133 such research.

134 Studies involving animals and cell lines must include a statement on ethical approval. More
135 information is available at [Editorial Policies](#).

136 If the manuscript does not involve such issue, please state “Not applicable.” in this section.

137 **Consent for publication**

138 Manuscripts containing individual details, images or videos, must obtain consent for publication from
139 that person, or in the case of children, their parents or legal guardians. If the person has died, consent for
140 publication must be obtained from the next of kin of the participant. Manuscripts must include a
141 statement that a written informed consent for publication was obtained. Authors do not have to submit
142 such content accompanying the manuscript. However, these documents must be available if requested.

143 If the manuscript does not involve this issue, state “Not applicable.” in this section.

144 **Copyright**

145 Authors retain copyright of their works through a Creative Commons Attribution 4.0 International
146 License that clearly states how readers can copy, distribute, and use their attributed research, free of
147 charge. Authors are required to sign License to Publish before formal publication.

148 **REFERENCES**

149 Identify references in the text by alphabetic numerals e. g. [1-3] or [1, 2]. The reference list should be
150 separated from the text; references must be numbered consecutively in the order in which they are
151 mentioned in the text. Use the style of the examples below, which are based on the formats used by the
152 NLM in Index Medicus. The titles of journals should be abbreviated according to the style used in Index
153 Medicus. Use complete name of the journal for non-indexed journals. Avoid using abstracts as references.
154 Information from manuscripts submitted but not accepted should be cited in the text as "unpublished
155 observations" with written permission from the source. Avoid citing a "personal communication" unless
156 it provides essential information not available from a public source, in which case the name of the person
157 and date of communication should be cited in parentheses in the text.

168 The journal also recommends that authors prepare references with a bibliography software package, such
169 as EndNote to avoid typing mistakes and duplicated references.

170 **Supplementary Materials**

171 Additional data and information can be uploaded as Supplementary Materials to accompany the
172 manuscripts. The supplementary materials will also be available to the referees as part of the peer-review
173 process. Any file format is acceptable, such as data sheet (word, excel, csv, cdx, fasta, pdf or zip files),

174 presentation (powerpoint, pdf or zip files), image (cdx, eps, jpeg, pdf, png or tiff), table (word, excel, csv
175 or pdf).
